

# FIREWALL SECURITY ANALYSIS REPORT

Firewall Log Analyzer | Network Defense

Generated: 2026-08-31 09:14:40

## 1. Executive Summary

The firewall log analyzer processed **15** network events. **6** events were accepted and **9** events were blocked. The detection engine identified **6** security alerts requiring further review.

| Metric          | Value |
|-----------------|-------|
| Total Events    | 15    |
| Accepted Events | 6     |
| Dropped Events  | 9     |
| Security Alerts | 6     |

## 2. Security Findings

| Severity | Alert Type                   | Source IP      | Description                                        |
|----------|------------------------------|----------------|----------------------------------------------------|
| HIGH     | Excessive Denied Connections | 185.220.101.45 | Source IP generated 6 denied connections.          |
| HIGH     | Possible Port Scan           | 185.220.101.45 | Source IP contacted 5 different destination ports. |
| MEDIUM   | Sensitive Port Activity      | 185.220.101.45 | 2 DROP event(s) detected against SSH (port 22).    |
| MEDIUM   | Sensitive Port Activity      | 185.220.101.45 | 1 DROP event(s) detected against Telnet (port 23). |
| MEDIUM   | Sensitive Port Activity      | 185.220.101.45 | 1 DROP event(s) detected against SMTP (port 25).   |
| MEDIUM   | Sensitive Port Activity      | 45.12.33.19    | 3 DROP event(s) detected against RDP (port 3389).  |

## 3. Recommendations

- Investigate source IP addresses generating repeated blocked connections.
- Review firewall rules protecting SSH, RDP, Telnet, and other sensitive services.
- Monitor repeated connection attempts across multiple destination ports.
- Consider implementing IP reputation and threat intelligence enrichment.
- Continue monitoring firewall logs for recurring patterns and anomalous behavior.

## 4. Firewall Event Log

| Timestamp           | Source         | Destination | D.Port | Protocol | Action |
|---------------------|----------------|-------------|--------|----------|--------|
| 2026-08-31 08:01:23 | 192.168.1.15   | 10.0.0.10   | 443    | TCP      | ACCEPT |
| 2026-08-31 08:01:25 | 192.168.1.20   | 10.0.0.10   | 80     | TCP      | ACCEPT |
| 2026-08-31 08:02:11 | 185.220.101.45 | 10.0.0.10   | 22     | TCP      | DROP   |
| 2026-08-31 08:02:12 | 185.220.101.45 | 10.0.0.10   | 22     | TCP      | DROP   |
| 2026-08-31 08:02:13 | 185.220.101.45 | 10.0.0.10   | 23     | TCP      | DROP   |
| 2026-08-31 08:02:14 | 185.220.101.45 | 10.0.0.10   | 25     | TCP      | DROP   |
| 2026-08-31 08:02:15 | 185.220.101.45 | 10.0.0.10   | 80     | TCP      | DROP   |

| Timestamp           | Source         | Destination | D.Port | Protocol | Action |
|---------------------|----------------|-------------|--------|----------|--------|
| 2026-08-31 08:02:16 | 185.220.101.45 | 10.0.0.10   | 443    | TCP      | DROP   |
| 2026-08-31 08:03:10 | 192.168.1.25   | 10.0.0.10   | 53     | UDP      | ACCEPT |
| 2026-08-31 08:03:15 | 192.168.1.30   | 10.0.0.10   | 443    | TCP      | ACCEPT |
| 2026-08-31 08:04:02 | 45.12.33.19    | 10.0.0.10   | 3389   | TCP      | DROP   |
| 2026-08-31 08:04:03 | 45.12.33.19    | 10.0.0.10   | 3389   | TCP      | DROP   |
| 2026-08-31 08:04:04 | 45.12.33.19    | 10.0.0.10   | 3389   | TCP      | DROP   |
| 2026-08-31 08:05:11 | 192.168.1.15   | 10.0.0.10   | 443    | TCP      | ACCEPT |
| 2026-08-31 08:05:20 | 192.168.1.20   | 10.0.0.10   | 80     | TCP      | ACCEPT |
